Job Role

This role has been designed by Springboard to work in partnership with its settings in North Wiltshire to support the inclusion of shared children into their mainstream setting.

This means I will be working with mainstream pre-school and childminder settings to help support the needs of our shared children. I will also be working with our mainstream and specialist primary schools to support the transition of Springboard children into their new schools. I want to work with you to help the children get the best and most inclusive experience they can.
